# Story 35532

As a release owner, I can view multiple branded policy versions concurrently on QE Online (For Example, SDL 6.0 and SDL 6.1)
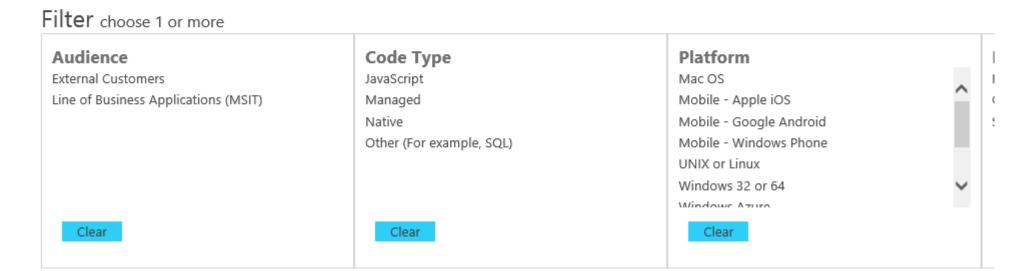

Acceptance Criteria Basics

- Behavior must be environment specific (Community/Staging/Production)

- Behavior must work in Internet Explorer versions 9+ at a minimum

- Page must meet [accessibility standards](#) (for example, alt text)

Policy Title — Accessibility ▾

No additional tabs appear unless there are multiple policy groups OR there are hard-coded links to previous versions

Accessibility makes it easier for anyone to see, hear, and use a computer or device, and to customize their computing environment accord enable people and businesses throughout the world to realize their full potential. We consider our mission statement a promise to our cu that is accessible to everyone—including people who experience the world in different ways because of impairments and disabilities.

More Info Links

When users choose to **More Info** for a policy or procedure, display the policy page based on the source ID for that specific version of the policy
